Team and company events in the Swisscom Nordic Arena Kandersteg

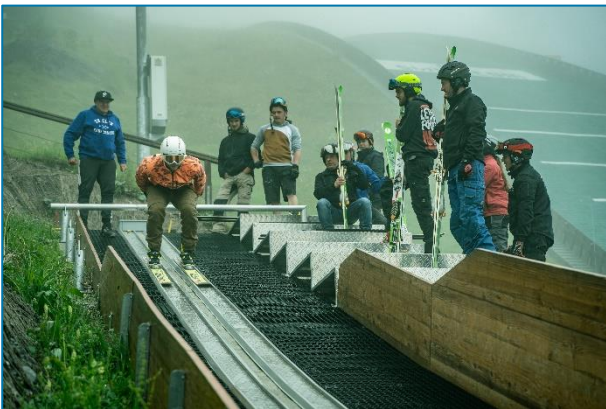

Our experiences around ski jumping are unique in Europe. Surrounded by the spectacular mountain world of Kandersteg, you can experience unforgettable hours. Where usually ski jumpers fly towards the valley, you can also glide downhill on pneumatic tires. Daredevils can reach up to 90 km/h - just like the ski jumpers.

Of course, trying out ski jumping is also possible on the children's and youth ski jumps. You will be introduced to the sport step by step with real ski jumping equipment and professional guidance.

Other disciplines such as the wooden ski course, the stair race or the virtual reality experience show what it takes to ski jumping. In addition, you will learn exciting background information about the Swisscom Nordic Arena, the most beautiful ski jumping facility in Central Europe.

If you like, you can also book a ski jumping show training on the big jumps. The athletes will amaze you. The training could well take place during a guided tour of the ski jumps or fit in with an aperitif.

The team or company event becomes a great experience. You also promote the work of young people on our ski jumps at the same time.

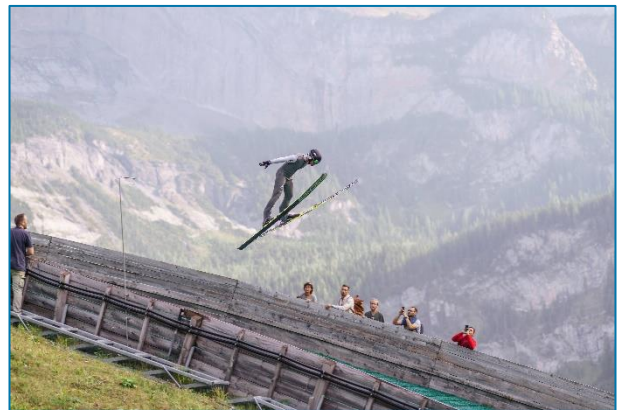

Overview of individual offers. You choose the most suitable...

- «Take off» - trial course ski jumping
For the first time, you will jump over a real ski jump with real ski jumping skis. We'll show you what's important and help you overcome the heart palpitations on the bar. You will jump! We measure the distance.
- «Race down» - Mountain Tubing
You sit down in a pneumatic tire and race down the ski jump slope at up to 90 km/h and experience the incredible speed at which the ski jumpers fly.

- **«Run up»** - Staircase run Lötschberg ski jump
For once, you can experience the jump in reverse and run up the 248 steps of the stairs on the side of the big jump. You may never encounter a steeper and longer staircase again. Your time will be stopped.
- **«Jump by yourself»** - 360° Virtual Reality Ski Jumping
Do you want to experience for yourself what it feels like to jump almost 100 meters on our large ski jump? Equipped with VR goggles, you'll be right in the middle of the jump instead of just being there. Heart palpitations in the air included!
- **«Stand together»** - Team competition on wooden skis
As a group you try - together on a pair of long wooden skis - to master a course faster than the other groups. A lot of laughter is programmed!
